

a total commitment to quality

METOOOL
CO. LTD

Precision Engineers, Fabricators and Tube Manipulators

The Exception to the Rule

Profile

Formed over 35 years ago Metool Co Ltd. has evolved into a company with a broad ranging capacity of sub contract services for a wide variety of customers covering many different industries.

The company located at Royton, Oldham, is housed in a 35000 sq.ft custom built factory unit which due to continued heavy investment is equipped with the very latest in engineering technology, including laser profiling, wire eroding, EDM, CAD/CAM and numerous CNC capabilities.

Philosophy

The philosophy of the company is a total commitment to quality. All the many processes being subjected to the most rigorous quality standards and is supported by the necessary qualified and skilled personnel to achieve the same. Our aim is to be a "Service Provider" with a concept of building long term relationships with our customers. To achieve this we place great emphasis on our reputation for delivering on time and our ability to cope with minimal lead times.

Our ability to produce our own tooling for our wide ranging capacity has allowed us to develop into a company with a flair for taking on the difficult types of components, thus enhancing our reputation with a number of blue chip companies along with numerous smaller organisations.
